Currently this process is free to use the State's Program, but if they bring their Sales Disclosure for us to enter, we currently charge \$5.00. Anne talked about what some of the other Assessor's charge and she advised Marion County charges \$50.00 per Sales Disclosure. The cost for the software will be \$15,000.00 for the first year and \$18,000.00 annually after that. Claxton asked how long we are locked in at \$18,000.00. Anne advised she will find this out for next month's meeting. Smith asked if there was a way to get this money back, Anne advised we charge \$5.00 right now and Anne would like to charge \$25.00 per Sales Disclosure entered. This was information only, not action was needed.

SHERIFF:

The Sheriff wanted to talk to the Council about the radios. He advised with the new wave of communications the radios are about like a computer. Motorola has been nice and let us have access to these updates. Currently we have two people that are updating these radios and that would be myself and Deputy Batton. We really don't have the time to do this, but we make time, which usually mean Deputy Batton coming in one night a week which pulls him off the road. This will leave us short one officer on the road. So, with this Ryan, Tom Debaun and Ryan have talked about this, currently we only do our radios, this doesn't include City Police, City Fire, Vol. Fire Departments, prosecutors or whom ever else in the County carries a radio not being updated. We have talked that with the EMA being able to hire an Administrative Assistant and getting reimbursed 50% reimbursement from Homeland Security (FEMA). We have roughly 760 radios in the county. One thing that we talked about is letting the EMA department to hire this person which would only have the County to pay for 15% of the salary. With me having just been able to hire a new deputy at new hire rate there is our money. If you would be willing this will help the whole county, we all need to be able to communicate. If you give us a budget of \$27,000.00 FEMA will reimburse us 50% and the city reimburses us 25% of this budget leaving the county with paying on 25% of the budget. We are looking

at the part-time person being paid up to \$24.00 - \$25.00 an hour and to send these out and have them done it would cost us about \$100,000.00 and this would be
The state recommends updating these two times a year. No action was taken on this.

There being no further business a motion to adjourn was made by Smith, seconded by Compton, approved 6-0
